MULTI TYNE GRAPPLES

MULTI PURPOSE GRAPPLE SG

The Multi-Tyne (SG) grapple is our most versatile and popular model. Available for machines from 3 to 30 tonnes it can be specified with a range of options. For general demolition and clearance work the standard 3-2 tyne configuration is most cost effective. On waste transfer applications we would recommend an additional pair of tynes to a 3-4 arrangement which permits better handling of light bulky materials. This style grapple can also be adapted for rock handling, this entails the fitting of a longer more curved tyne coupled with an increased strength main body.

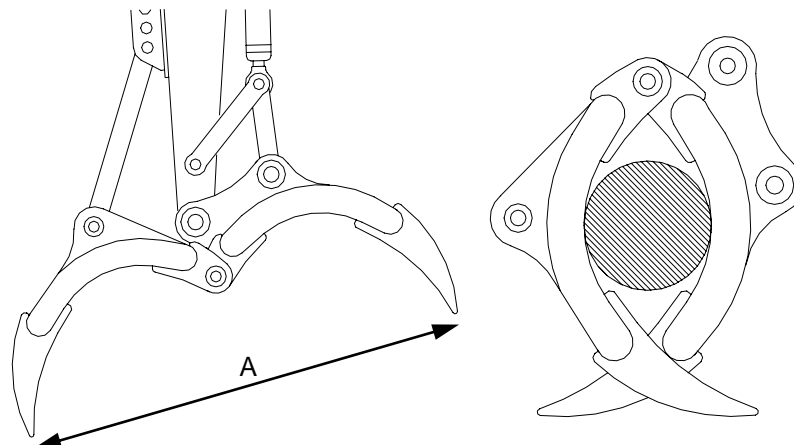

Machine Weight Range	3 - 7	7 - 12	12 - 18		18 - 25				25 - 35	
MODEL	SG5	SG10	SG15	SGX15	SG20	SGX20	SGXD2	SGW20	SG25	SGX25
Weight [kg]	260	520	600	600	900	950	1100	1150	1100	1300
Opening (A) [mm]	1500	2040	2040	2040	2650	2650	2650	2650	3050	3050
Grapple Width [mm]	680	720	720	720	820	900	900	1125	870	870
Tyne Arrangement [mm]	3/4	3/4	2/3	3/4	2/3	3/4	3/4	5/6	2/3	3/4
Tyne Thickness [mm]	40	50	70	50	80	60	80	60	80	80

Models shown are standard items, other sizes/configurations quoted on request.

ROLLED PLATE GRAPPLE RG

The Rolled Plate Grapple (RG) has been designed for use on machines of approximately 30 tonnes and above. The upper portion of the grapple is constructed with a rolled section which results in the grapple having a large "void" area on closure. This style of grapple is highly suited for rock/sea defence work and allows voluminous materials to be easily carried within the grapple body. Constructed from high strength steels and with short solid tynes it is also an effective demolition tool.

Machine Weight Range	30 - 35		35 - 45		45 - 80
MODEL	RG30	RGX30	RG35	RGX35	RG45/80
Weight [kg]	1700	1850	1900	2050	<i>Manufactured to suit machine and material specifications, please contact us for details</i>
Opening (A) [mm]	3050	3050	3050	3050	
Grapple Width [mm]	1025	1025	1025	1025	
Tyne Arrange- [mm]	2/3	3/4	2/3	3/4	
Tyne Thickness [mm]	90	90	100/110	100/110
